

Registered Nurses Needed

Our school clinics need qualified substitute Registered Nurses.

A qualified candidate must have a current VA nursing license, a desire to work in a school setting, and the availability to work daytime hours Monday through Friday during the school year. Nurses can specify one school attendance area in which they are willing to help or may agree to work in several.

If you are qualified, complete the online application for Loudoun County Public School (LCPS) substitutes under the "Employment" tab on the LCPS website <https://apply.lcps.org/appentry/?50972510152846Nav=1&NodeID=2197> . After your paperwork is processed by Personnel and you complete a general LCPS orientation, you will be scheduled for training with Health Services.

Please call Health Services at 571-252-1017 if you have any questions. We look forward to hearing from you.
